# **SAFETY DATA SHEET**

235A110

## Section 1. Identification

| Product name                                 | : SealTech Water-Based Waterproofing Sealer<br>Clear   |
|--|--|
| Product code                                 | : 235A110  |
| Other means of identification                | : Not available.   |
| Product type                                 | : Liquid.  |
| Relevant identified uses of t                | he substance or mixture and uses advised against   |
| Paint or paint related material.             |  |
| Manufacturer                                 | : Manufactured for: ACE Hardware Corporation<br>2200 Kensington Court<br>Oak Brook, IL 60523 |
| Emergency telephone<br>number of the company | : (800) 535-5053<br>1-352-323-3500   |
| Product Information<br>Telephone Number      | : (800) 777-6797   |
| Regulatory Information<br>Telephone Number   | : (216) 566-2902   |
| Transportation Emergency<br>Telephone Number | : (800) 535-5053<br>1-352-323-3500   |

## Section 2. Hazards identification

| : While this material is not considered hazardous by the OSHA Hazard Communication<br>Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the<br>safe handling and proper use of the product. This SDS should be retained and available<br>for employees and other users of this product. |
|---|
| : Not classified.   |
|   |
| : No signal word.   |
| : No known significant effects or critical hazards.   |
|   |
| : Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.   |
| : Not applicable.   |
| WARNING: This product contains chemicals known to the State of California to cause<br>cancer and birth defects or other reproductive harm.  |
| Please refer to the SDS for additional information. Keep out of reach of children. Do not transfer contents to other containers for storage.  |
| : None known.   |
|   |

### Section 3. Composition/information on ingredients

### Substance/mixture

: Mixture

Other means of identification

: Not available.

### **CAS number/other identifiers**

| Ingredient name | % by weight | CAS number |
|-----------------|-------------|------------|
|                 |             |            |
|                 |             |            |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First aid measures

### Description of necessary first aid measures

| Eye contact  | <ul> <li>Immediately flush eyes with plenty of water, occasionally lifting the upper and lower<br/>eyelids. Check for and remove any contact lenses. Get medical attention if irritation<br/>occurs.</li> </ul>   |
|--------------|---|
| Inhalation   | <ul> <li>Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get<br/>medical attention if symptoms occur.</li> </ul>   |
| Skin contact | <ul> <li>Flush contaminated skin with plenty of water. Remove contaminated clothing and<br/>shoes. Get medical attention if symptoms occur.</li> </ul>  |
| Ingestion    | : Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. |

### Most important symptoms/effects, acute and delayed

| Potential acute health       | effects   |
|------------------------------|---|
| Eye contact                  | : No known significant effects or critical hazards.                               |
| Inhalation                   | : No known significant effects or critical hazards.                               |
| Skin contact                 | : No known significant effects or critical hazards.                               |
| Ingestion                    | : No known significant effects or critical hazards.                               |
| <u>Over-exposure signs/s</u> | <u>ymptoms</u>  |
| Eye contact                  | : No specific data.   |
| Inhalation                   | : No specific data.   |
| Skin contact                 | : No specific data.   |
| Ingestion                    | : No specific data.   |
| Indication of immediate      | medical attention and special treatment needed, if necessary                      |
| Notes to physician           | : Treat symptomatically. Contact poison treatment specialist immediately if large |

| Notes to physician         | : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. |  |
|----------------------------|---|--|
| Specific treatments        | : No specific treatment.  |  |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training.  |  |

### See toxicological information (Section 11)

## Section 5. Fire-fighting measures

| Extinguishing media                            |   |
|--|---|
| Suitable extinguishing media                   | : Use an extinguishing agent suitable for the surrounding fire.   |
| Unsuitable extinguishing media                 | : None known.   |
| Specific hazards arising from the chemical     | : In a fire or if heated, a pressure increase will occur and the container may burst.   |
| Hazardous thermal decomposition products       | : No specific data.   |
| Special protective actions for fire-fighters   | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.                         |

## Section 6. Accidental release measures

| Personal precautions, protect  | tive equipment and emergency procedures  |
|--------------------------------|--|
| For non-emergency<br>personnel | : No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Put on appropriate personal<br>protective equipment.   |
| For emergency responders       | : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".  |
| Environmental precautions      | : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).  |
| Methods and materials for co   | ntainment and cleaning up  |
| Small spill                    | : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.  |
| Large spill                    | : Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

## Section 7. Handling and storage

| Precautions for safe hand              | ling  |
|--|---|
| Protective measures                    | : Put on appropriate personal protective equipment (see Section 8).   |
| Advice on general occupational hygiene | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. |

## Section 7. Handling and storage

| Conditions for safe storage,<br>including any<br>incompatibilities | : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use. |
|--|--|
|  | materials before handling of use.  |

## Section 8. Exposure controls/personal protection

### Control parameters

Occupational exposure limits (OSHA United States)

| h | ngredient name | Exposure limits |
|---|----------------|-----------------|
| ٨ | lone.          |                 |

### **Occupational exposure limits (Canada)**

### Occupational exposure limits (Mexico)

| Ingredient name | Exposure limits |
|-----------------|-----------------|
| None.           |                 |

| Appropriate engineering controls | : | Good general ventilation should be sufficient to control worker exposure to airborne contaminants.  |
|----------------------------------|---|---|
| Environmental exposure controls  |   | Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some |

| ols | they comply with the requirements of environmental protection legislation. In some   |
|-----|--|
|     | cases, fume scrubbers, filters or engineering modifications to the process equipment |
|     | will be necessary to reduce emissions to acceptable levels.                          |

### Individual protection measures

|                        | - |   |
|------------------------|---|---|
| Hygiene measures       | : | Wash hands, forearms and face thoroughly after handling chemical products, before<br>eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Wash contaminated clothing before reusing. Ensure that eyewash stations and safety<br>showers are close to the workstation location. |
| Eye/face protection    | : | Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.   |
| Skin protection        |   |   |
| Hand protection        | : | Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.   |
| Body protection        | : | Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.   |
| Other skin protection  | : | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.   |
| Respiratory protection | : | Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.  |

| Date of issue/Date | of revision                   | : 1/21/2019   | Date of previous issue | : 1/10/2019 | Version | <mark>:</mark> 1.05 | 4/9 |

| 235A110            | SealTech Water-Based<br>Clear | Waterproofing | Sealer                 |             | SHW-85- | NA-GHS-US           |     |

## Section 9. Physical and chemical properties

| <u>Appearance</u>                            |   |
|--|---|
| Physical state                               | : Liquid.   |
| Color  | : Not available.  |
| Odor   | : Not available.  |
| Odor threshold                               | : Not available.  |
| рН   | : 9   |
| Melting point/freezing point                 | : Not available.  |
| Boiling point/boiling range                  | : 100°C (212°F)   |
| Flash point                                  | : Closed cup: 96°C (204.8°F) [Pensky-Martens Closed Cup]          |
| Evaporation rate                             | : 0.09 (butyl acetate = 1)  |
| Flammability (solid, gas)                    | : Not available.  |
| Lower and upper explosive (flammable) limits | : Not available.  |
| Vapor pressure                               | : 2.3 kPa (17.5 mm Hg) [at 20°C]                                  |
| Vapor density                                | : 1 [Air = 1]   |
| Relative density                             | : 1   |
| Solubility                                   | : Not available.  |
| Partition coefficient: n-<br>octanol/water   | : Not available.  |
| Auto-ignition temperature                    | : Not available.  |
| Decomposition temperature                    | : Not available.  |
| Viscosity                                    | : Kinematic (40°C (104°F)): >0.205 cm <sup>2</sup> /s (>20.5 cSt) |
| Molecular weight                             | : Not applicable.   |
| Aerosol product                              |   |
| Heat of combustion                           | : 0.784 kJ/g  |

## Section 10. Stability and reactivity

|                                    | -  |
|------------------------------------|--|
| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.           |
| Chemical stability                 | : The product is stable.   |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.                      |
| Conditions to avoid                | : No specific data.  |
| Incompatible materials             | : No specific data.  |
| Hazardous decomposition products   | : Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

## Section 11. Toxicological information

### Information on toxicological effects

### Acute toxicity

Not available.

### Irritation/Corrosion

Not available.

### **Sensitization**

Disposal methods : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

### Section 15. Regulatory information

TSCA 5(a)2 proposed significant new use rules: 5-Chloro-2-methylisothiazolinone

### SARA 313

SARA 313 (40 CFR 372.45) supplier notification can be found on the Environmental Data Sheet.

### California Prop. 65

WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

### International regulations

Korea inventory (KECI): Not determined. Malaysia Inventory (EHS Register): Not determined. New Zealand Inventory of Chemicals (NZIoC): Not determined. Philippines inventory (PICCS): Not determined. Taiwan Chemical Substances Inventory (TCSI): Not determined. Thailand inventory: Not determined. Turkey inventory: Not determined. Vietnam inventory: Not determined.

### Section 16. Other information

### Hazardous Material Information System (U.S.A.)

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on SDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc.

### Notice to reader

It is recommended that each customer or recipient of this Safety Data Sheet (SDS) study it carefully and consult resources, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. This information is provided in good faith and believed to be accurate as of the effective date herein. However, no warranty, express or implied, is given. The information presented here applies only to the product as shipped. The addition of any material can change the composition, hazards and risks of the product. Products shall not be repackaged, modified, or tinted except as specifically instructed by the manufacturer, including but not limited to the incorporation of products not specified by the manufacturer, or the use or addition of products in proportions not specified by the manufacturer. Regulatory requirements are subject to change and may differ between various locations and jurisdictions. The customer/buyer/user is responsible to ensure that his activities comply with all country, federal, state, provincial or local laws. The conditions for use of the product are not under the control of the manufacturer; the customer/buyer/user is responsible to determine the conditions necessary for the safe use of this product. The customer/buyer/user should not use the product for any purpose other than the purpose shown in the applicable section of this SDS without first referring to the supplier and obtaining written handling instructions. Due to the proliferation of sources for information such as manufacturer-specific SDS, the manufacturer cannot be responsible for SDSs obtained from any other source.
